

COURT RULING:

On November 16, 2016 my attorneys filed a motion in District Court for a new trial based on new evidence. Two weeks later my attorneys received the judge's ruling that was handwritten on the bottom of the last page of the motion. The judge stated, "After a careful review of all the pleadings in the above referenced dockets, the defendant's motion to reconsider his motion for a new trial is without merit and denied."

Note: We never got a hearing to be heard and present the new evidence!
